Re: 120 Exchange St. 3rd Floor Fit Up

Norris Inc. will add, remove and relocate fire alarm devices as needed for the 3rd floor tenant fit up which will be occupied by Kepware. The building has an existing addressable Firelite panel which is located in the electrical room in the first floor lobby (Congress St. side). The existing panel will accommodate the new devices required for the fit up. The panel is currently monitored by a 24 hour central station (HSMC). The building and the tenant space are fully sprinkled.
