Hi Peter,

Just a quick question on this application - the window signage is proposed to stay the same, correct? I just wanted to make sure there was no intent to cover the windows with any film or sticker to make them not transparent.

Thanks,
Chris

No, the windows are clear with vinyl sticking on them currently. The mock-up photo you may be referring to was taken when we were still in planning and the windows were covered in paper

OK thanks. I think the mock-up just had the windows colored in with blue (probably to represent glass) and I just wanted to make sure it wasn't going to be some kind of visual blocking on the windows, as that is not allowed in this zone.
