	Thank you Brian for the detailed information. At this point the extension sounds like the best option for my needs.				
No recent choto	Please see the attached drawing of the interior and exterior. The window will be 16' from the acute angle of my patio on the Federal St. side of the property. The drawing was used for my outdoor dining permit, so obviously, I will be removing the tables and chairs from the window area. In case you are wondering how much room there is from the window to the railing of our patio, it is 10'. This will be accessible through the
