The two signs are 3H x 2W, so 6' sq. each, for a total in signs of 12sf.

The Awning has lettering along the bottom and I am estimating that it is another 6sq of signage.

Does that provide you with the information required?

Larry

Larry, we need a mock up of the dimensions of the signs before we can move this permit forward. It looks like you will have 2 building signs and 1 awning. You state the total sq ft for signage is 18', but then you note the signage for the awning is 18' sq. Please clarify.
