Subject: Permit Application & Sketch

To Whom It May Concern:

As previously discussed in earlier email from Peter Gellerson, an application for a building permit, as well as a sketch of work requested by Mike Russell, the manager of Environmental Health and Safety, for work to be done in the basement of 4 Moulton Street for Bill's Pizza at 177 Commercial Street. The work consists of re-grading the dirt cellar, placing 4 inches of $\frac{3}{4}$ " crushed stone and pouring a 4 inch concrete slab on an area 16 feet wide and 6 $\frac{1}{2}$ feet deep.

Once the slab has been poured, we will construct a 2" by 4" frame on the slab and sheath it with $\frac{3}{4}$ " marine grade plywood to deter any possible rodents. All seams will be heavily caulked. One 30" door will be placed on the 16 foot side for access.

Please call me at 239-7993 if you have questions.

Thanks in advance on behalf of Pete Gellerson,

Brenda
