Subject: Re: Schlotterbeck & Foss

Hi Rick,

Thank you for following up with the intended scope of work for the permit prior to the issuance of the full permit for this project. As we discussed, I am amenable to having all of these items be eligible for fast track status. You will note that only the interior demolition is listed as a check off on the fast track form, therefore the first 3 items will also be allowed as part of the application.

Please submit all applicable plans and details for the associated work along with both the general building permit application and the fast track form. Also, note that site work cannot be approved with this application, this will need to be a separate request to the Planning Department Director.

Please include this email as a pdf document with your application.

Best,
Jeanie

Jeanie,

Per our meeting Wednesday regarding the permit application procedure for the Schlotterbeck and Foss building, the following is a list of the nonstructural demolition we are contemplating:

- 1: reroofing
- 2: window replacement
- 3: masonry restoration
4. partial non structural building demolition
5. system demolition: plumbing/ electrical etc except sprinkler

Rick
