

My name is Kristy Burdick and I live at 361 Cumberland Avenue, Apartment #3, in Portland. I have lived here for four years and this is the first year that I have had an issue with bed bugs. My landlord has had to spray the unit "3" times, and I am still seeing them in my furniture and my bedding (I have washed my bedding in hot water and dried it on high three times, as instructed, with no success). I have tried calling the office and have been told "they take a while to die,". The stress from this issue is affecting both my physical and mental health (I have been depressed, and I have been coughing up blood). I am also in the process of writing to Augusta. I would appreciate any help in this matter as soon as possible.

Sincerely,

Kristy Burdick
