SHEET TITLE AND NUMBER:

Mechanical Demolition Plan

- I. The intention of the ductwork drawing on this sheet (MDI) is to show the general location and approximate sizes of the existing ductwork. It does not show all the branch ducts or any of the existing registers, grilles \$diffusers.
- The existing air handling units and hot water heating coils are to remain in-place and in-use.
- The existing refrigerant piping and hot water heating piping is to remain in-place and in-use
- 4. The roof-mounted condensing units are to remain in-place and in-use.
- 5. Remove all existing ductwork from the jobsite including but not limited to:
- 5.1. All main supply and return ductwork
- 5.2. All branch ductwork
- 5.3. All registers, grilles and diffusers.
