

## Sign Application for Portland & Rochester Public House

Chart Index

033 O 004

My insurance salesman will send you a certificate of liability upon request as we are just working on our insurance package at the moment. His contact information is listed below mine.

The first sign is the larger of the two and is painted directly onto the building. It will be no larger than 10' x 5'. The design is the full logo that has been provided. My graphic artist has provided a sketch so it will be very similar to this.

The second design will be made to fit the existing supports. Please excuse my artistic skills, my sketch is not quite as good as the other. It is simply "P&R public house" based on the lettering from the original logo. The letters are to be fabricated sheet metal welded to a frame and illuminated from the interior by the existing light. The rest will be just empty space.
