Tammy, can you please respond? I don't show anything in our call log, but wondering if she's been calling and being put into your voicemail? I believe this is the one about the fees associated with the federal building.  
 -Brad.

The Inspections Division has received your application and has done a preliminary completeness check of your documents. It has been determined that your application does not meet the standard requirements.

Please review the application fields, the items required within the checklist and [Applicant Submittal Requirements for Electronic Plan Review](#). Please resubmit your entire application with the appropriate

changes and supporting documents accordingly.

*Debbie,*

*Please provide the "Cost of Work" on your Fire Alarm Permit Application. We determine your permit application fee with this amount. This is all that is needed to process your permit application. Please submit ASAP. Thanks!
