Ryan,

If the food preparation, cooking, and dish washing is going to be done in the main kitchen, only a hand wash sink would be needed in the RV. They would also need to have access to a designated prep sink for produce washing and a mop/utility sink somewhere in the establishment as well.

Feel free to contact me with any other questions you may have.

Matt and Ryan,

Can you clarify what the RV on the roof top deck will be used for in terms of actual cooking and/or drink preparation? I have copied Eric Cobb on this email and he will help determine the cities requirements on what the RV will be required to have for kitchen equipment.

Thanks,
