Ok, so \$350,000 IS the cost of work for the foundation work for this permit?

Matt, is the cost of work provided, \$350,000 only for the foundation?

Matt

Looking at your documents you brought over, I will need you to provide ONLY those which pertain to the permit on hand. You are requesting a foundation only permit right now. I need you to provide only the plans that pertain to the foundation. Once we get those, we can enter the permit. Unfortunately I didn't realize you provided all the plans for the complete project. You can either just send them over as attachments or if you wish, bring them over on a thumb drive. Thank you.

Please replace the following file with the attached that has the corrected project description on it:
