Hi there, in researching this permit, your application also does not have the correct owner information on it. According to our records, Intermed is not the owner of the structure. If they are the lessee, you need to show right, title and interest in the work. Please provide. This permit will stay on hold until this item has been taken care of.

Good morning,

Please see permit application, fast track permit eligibility application and drawing pdf's attached. Please let me know if there are any requirements that I have neglected to submit.

Thanks!
Jessica
