NOTE:

Treatment Area R will include a reduction of the reinforced edge along the upper most portions of the ravine bank on the northerly side. The removed stone sections will be field-determined and will be reset in the stepped path area, marked "P" on the plan.

TREATMENT DESCRIPTIONS:

- R** Reinforced edges of sloped granite. Currently spaces between blocks have naturalized, with grasses & aster species noted. Maintain current management with monitoring for invasive species.
- W** Add native herbaceous seedlings (Blue Flag Iris, White Beard Tongue, Wild Bergamot) to diversity existing species in wetland area.
- H** Add pockets of native herbaceous seedlings (Fox Sedge, Obedient Plant, Ironweed) near new stepping stones.
- N** Reduce mowing schedule below path to stimulate growth of native grasses and forbs. Maintain height between 5-8 inches.
- X** Remove invasive honeysuckle.
- P** Stepped stone path with reclaim curb & boulders
- 1** TREE / SHRUB GROUPING, as referenced:
 - CAH Clethra 'a. Hummingbird', Dwarf Summersweet
