--	--

Chapter 6, Article VI of the City of Portland Code of Ordinances requires owners and managers to register rental units with the City of Portland Housing Safety Office. A rental unit is any portion of any residential structure that is rented or available to rent for any length of time to an individual(s) who is not the owner(s). Registration is due annually by January 1 of each year beginning January 1, 2016 and within thirty (30) days of purchasing a property used for rental. The registration fee is \$35 per individually rented room and/or dwelling unit. Failure to register may result in a fine.

Complete the Rental Housing Registration Form and Owner's Pre-Inspection Checklist for each rental property (multiple rental units at the same property with the same owner can share the same form) and return to the City of Portland Housing Safety Office by email to housing-safety@portlandmaine.gov as a digital PDF along with any scanned attachments. Paper and scanned forms will be accepted by fax, mail, and in person; however, digital PDF forms are preferred. After the registration information and fee discount documentation has been verified, an invoice for payment will be sent by email to the party certifying registration entered below.

NA - not applicable

Question	Code Explanation
1.1	There must be a working smoke alarm (detector) on each level of the building and dwelling unit including the basement and in the immediate vicinity of each bedroom or room used for sleeping, as well as in each bedroom.
1.2	There must be a working carbon monoxide (CO) alarm (detector) on each level of the building and dwelling unit. Each dwelling unit must have access to at least 2 separate ways out of the building that are not located close together unless the unit has an exit door opening to the outside at ground level, an enclosed stair used only by that unit opening to the outside at ground level, or access to an outside stair that serves no more than 2 units.
1.4	The way out of the building cannot be used for storage or trash containers. The way out of a building must be permanently lighted or by lighted by automatic means. Doors leading from a dwelling unit to a stairwell must be self-closing and fire rated. Locks or door hardware must be easy to use when leaving the building. Exit must lead to the ground level, not the basement.
1.5	All stairs must have handrails that are easy to grasp and that are securely mounted at a height between 34" and 38" measured from the leading edge of all treads, vertically to the handrail.
1.6	Each bedroom must have a window that can be opened without using tools or special knowledge. The opening of the window must be at least 20" wide and 24" high and provide an opening of 5.7 square feet. The bottom of the opening must be less than 48" above the floor.
