Hello,

Our client has chosen to revise the elevator in Station 415 from a 5 stop elevator to a 3 stop elevator. We have modified the drawings accordingly. Sheet A1.0 has been clouded to show the areas of revision on each floor plan as a guide.

I checked the City website and the drawing review is still pending.

The attached drawings have had the dates updated and are named exactly as the original submission.

We are concurrently reissuing the drawings to the SFMO for an update of their permit # CBF24039.

Please contact me if you have any questions,

Mark
