Hi Tim,

I am reviewing your application for a sign at the rear along Oak Street for the building that faces 551 Congress Street. The use I have in the building is 1st floor restaurant and 2nd floor offices in the front and 4 apts in the rear. Since signs are accessory, I need an approved use first. I do not have a permit for a public assembly area. I would need a permit for that first BEFORE I can issue this permit. This sign application must also be reviewed under the Historic guidelines.

Your permit is on hold at time. If you have any questions, please call at 874-8695.
