**Note:** **Ok to Issue:**

1) \*Awning material must be opaque (application calls for translucent fabric), so as not to emit light. (Only graphics on awning face may emit light.) Color of awning must match surrounding sign panel.

\* Per 8/4/08 discussion with David of Sign Concepts, proposed awning material will back-painted (except for lettering and illustration on front panel) so that it will not be translucent.

**Note:** Ordinance only allows one building sign per tenant but these signs are legally nonconforming (permit #94-1099). The awning sign remains the same. The two building signs are smaller than the originals. **Ok to Issue:**
