**DOOR AND HARDWARE NOTES**

- DOOR SCHEDULE notations refer to the following:
  - "Door No." are assigned by lockable room number. If more than one door exists then a suffix A, B, C... is applied. A series of room numbers may be indicated to save listing each door.
  - "Hand" In most cases door hand will not be shown except when locked side of door is unclear. It is the responsibility of the Contractor to refer to the drawings if hand hardware is required.
- LD - Left Hand Swing
  - RD - Right Hand Swing
  - LRB - Left Hand Reverse Swing
  - RRB - Right Hand Reverse Swing
- "Door Size" refers to nominal door opening. For rough framing opening refer to manufacturer's requirements on shop drawings.
- "Door Type" An elevation of the door is shown on this sheet. Additional information is shown including: Core type, insulation, glass area, decorative panels, finish, side lights and transoms lights, NIC rating manufacturer and specification...
- "Frame Type" An elevation of a frame type is indicated when on door is not required as in the case where a window with a hollow metal frame or a hollow metal casement opening is required. If a frame type is not indicated then it is shown with the door type.
- "Details" refers to head, jamb and/or threshold details shown on this sheet. Typically one detail is drawn for the head and jamb which are similar enough.
- "Fina Label" refers to a UL tested door and frame assembly meeting specific fire resistance specifications. A tag on the door and frame must be provided attesting to fire rating. Do not paint over tag.
- "Remarks" includes information not in any other heading for example: Undercut door 1", Special Door System see specification Section... provide new door and frame sized to utilize existing door opening. Provide new hardware for existing door. See signage schedule for sign mounted on this door...
