Subject: Re: Permit #105 - Channel 8 sign

Just realized that my measurements on the permit application were of the outside of the sign cabinet (16.5") and not the face sizes.

There is also a corner piece that had a channel 8 logo but it's not actually part of the faces that we are replacing thus the difference in length. We are not doing anything to that corner piece....just the faces. Faces total 38'6" not 41'

Also, can you verify the size of each of the two new signs? The old permit said one was 15.6" by 24' and the other 15.6" by 17'

Hi Ron,

Could you confirm the approximate length of frontage this tenant leases? The old permit said 60' on one street and 80' on the other, I don't know if this is basically accurate.

Thanks,
Chris
