Yes, they just measured their space and it is a touch larger as you can see in her response below and also yes to the faces sizes.

Thanks

Ron

I just had engineering go out to double check that. Frontage appears to be approximately 61' on Congress and 80' 7" on Preble. So same basic footprint, yes. Thanks.

Lynsey,

Do you know the answer to the City of Portland's question below regarding your space frontage on the 2 streets.

Let me know

Thanks

Ron

Hi Ron,

Could you confirm the approximate length of frontage this tenant leases? The old permit said 60' on one street and 80' on the other, I don't know if this is basically accurate.

Thanks,
Chris
