I'm inquiring about the permit status of 562 congress street permit number 201302606. I've checked the website but haven't seen a status change.

Hi Pat,

Thank you for this information, I am including the Zoning Administrator, Marge Schmuckal on this reply for her information.

Jeanie

Jeanie,

I've tried getting in touch with someone regarding the hold note on the website. The Zumba/Cardio room is just for employees of Diversified Communication and is not intended for use by the public. Currently the drawing 9/A2.02 shows a vinyl film graphic to be applied to the windows to allow some privacy for the employees during classes.

Please let me know if you have any questions,

*States "vinyl film graphic design to be determined"*

Thanks,  
Pat
