re: Permit ID 2014-01902, (issued 10/03/14)

Laurie,

We have been working with the inspectors on this job to resolve concerns about the conditions at one of the existing exit stairs from the lower level. The attached drawing shows the solution that has been agreed upon based on the inspector's site visits and conversations with the general contractor. It was requested that we submit this revised plan through you to make the change "official". If you have any questions please do not hesitate to give me a call.

best,
Charles
