Attached please find revised plans for the work proposed in permit #2017-00748. Since the original submittal the owner has chosen to enlarge the area of one of the "fit-up" spaces. The revised area has been "clouded" on the attached plans. Please let us know if there are any forms or other paper work for us to file along with these updated plans. I could not find anything online.

best,  
Charles

Hi Charles,

Thank you for the revised plans showing an increase of the lab classroom area into the existing storage space. This change in the floor plan is not significant enough to warrant a formal amendment to the original permit #2017-00748. I will file these with the permit documents under as built approvals.

Best,  
Jeanie
