#### RE: 522 Congress St.-Portland

R. P. Morrison 169C Lewiston Road Gray, Maine 0409

Dear Sir:

Your application to demo interior as per plan has been reviewed and a permit is herewith issued subject to the following requirements: This permit does not preclude the applicant from meeting applicable State and Federal laws.

#### Building/Fire Code

- 1. This permit is being issued with the understanding that no exterior work is to be done.
- The fire suppression system shall be maintained during this proposed demo.

Site Plan Planning Division Approved by Planning Board Deb Andrews Inspection Division Approved William Giroux Public Works Approved Craig Carrigan, PE Fire Department Approved LT. G. McDougal

If you have any questions regarding these requirements, please do not hesitate to contact this office.

Sincerely,

P. Samuel Hoffses Chief of Inspection Services

Ms. Jadine O'Brien, Chair Planning Board City of Portland 389 Congress Street Portland, Maine 04101

### Subject: Maine College of Art/ 522 Congress Street Project

Dear Ms. O'Brien:

On behalf of the Maine College of Art, I am pleased to enclose seven copies of materials in support of their application for site plan approval for the property at 522 Congress Street (formerly Porteous department store). The College is required to obtain the Board's approval of the site plan, since the use of the building will be changed.

In addition, the Zoning Administrator has advised that the College must obtain a conditional use approval for our proposed uses in the Pedestrian Activities District requirements. This is necessary since approximately 35% of the area governed by the PAD (40 feet in depth) is now or may be considered to be in non-PAD uses.

In summary, the college is requesting the following approvals from the Planning Board:

| 1. | Site plan approval - change of use          | Sec. 14-524 et seq. |
|----|---|---------------------|
| 2. | Conditional use approval - PAD requirements | Sec. 14-218(1)(d)   |

Thank you for your attention to this application.

Sincerely,

David Lakari, President Consultant to Maine College of Art

Enc.

September 15, 1994

Joan Fowler Smith Maine College of Art 97 Spring Street Portland, ME 04101

RE: 522 Congress Street - Site Plan Review

Dear Joan:

On March 8, 1994, the Portland Planning Board voted 6-0 (Cole absent) to approve the site plan for the renovation of the former Porteous Department store at 522 Congress Street. The project was also granted conditional use approval.

The approval is based on the submitted site plan and the findings related to site plan review standards as contained in Planning Report #10-94, which is attached.

Please note the following provisions and requirements for all site plan approvals:

- 1. A performance guarantee covering the site improvements as well as an inspection fee payment of 1.7% of the guarantee amount and 7 final sets of plans must be submitted to and approved by the Planning Division and Public Works prior to the release of the building permit. If you need to make any modifications to the approved site plan, you must submit a revised site plan for staff review and approval.
- 2. The site plan approval will be deemed to have expired unless work in the development has commenced within one (1) year of the approval or within a time period agreed upon in writing by the City and the applicant. Requests to extend approvals must be received before the expiration date.

### David Gordon Associates

A Briggs Associates, Inc. Company

Mon, December 27th, 1994

Mr. Sam Hoffses City of Portland, Building Inspection Dept. 389 Congress Street, Room 315 Portland, ME 04101

Project No. 31128

Dear Mr. Hoffses:

This letter is in confirmation of our telephone conversation of December 14th with regard to stair pressurisation for the Maine College of Art (Porteous Building) at 522 Congress Street Portland.

I understand that your interpretation of the building code (B.O.C.A.) is that it is not necessary to provide stair pressurization for this building as a method of smoke control because the building does not fall into the high rise category. Specifically the distance from the lowest level of fire department vehicle access to the floor of the highest occupiable story (5th floor) is less than 75 feet. This distance is 61 feet 5 inches for this building.

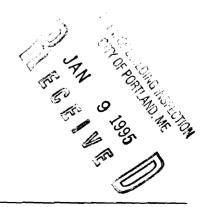

The exit stairwells will be 2 hr fire rated smoke compartments as you required.

Sincerely,

Declant Kirdan
