Dear Tom:

We received your request to install one (1) 4' x 41' building façade sign on the exterior façade of the building located at 516 Congress Street, in front of your space.

We believe your sign will fit in well with historic district, and certainly is a big improvement to the existing sign. This letter shall serve as Landlord approval for your exterior sign on our building, subject to approvals and permits by the City of Portland.

For our records, please send us a photo of the sign after it has been installed.

Thank you,

Peter Pachios
