Attachments: SE concourse egress stair.pdf

Jeanie / Ben,

As a part of the State building permit review, the State required an additional exit from the SE concourse addition. Refer to the attached drawings showing modifications necessary to add this additional egress stair (clouded in red).

At this point, the only remaining item I have open from the City and the State is the review documentation from the 3rd party reviewer of the smoke control system.

Please let me know if you have any other questions.

Thank you,

Mike
