Subject: CC Civic Center - Document update
Attachments: Cumberland County Civic Center Building Code Report Revised 4.16.13.pdf; SI069 - Life Safety Plans.pdf; SI073 - FIRE ALARM PLANS.pdf; SI073 - M8-01 - MECHANICAL SMOKE CONTROL SCHEMATICS.pdf; SI073 - revised specifications.pdf; Smoke Control Panel matrix-SI 073.pdf

Good afternoon,

Attached are updated files based upon the 3rd party review of the Civic Center documents.

The attached Life Safety Plan updates incorporate revisions for egress with the addition of the SE corner exit stair. All existing to remain and new Fire Extinguisher locations are shown as requested as well. The LSA series sheets have not been included since the center stage diagram (LSB series) depicts the maximum capacity.

Please let me know if you have any questions on this information.

We have been trading information on the remaining smoke control system questions between 'FP&C' and 'Fire Risk Management' as well. Once we have an update on this system review, I will be sure to have that shared with everyone as well for approval.

Thank you,

Mike
