Attachments: Tilson Office supporting photos A4.pdf; Tilson Office Floor Plan A1.pdf; Tilson Office Wall and Door sch A2.pdf; Tilson Office Work description A3.pdf; Tilson Office Permit Application.pdf

Good morning,

Attached please find our Building permit application for a small office (72 SF) being created in lieu of cubicles within an existing office space at 245 Commercial Street, Suite 203 for our client, Tilson Tech.

To support the permit application we are also attaching:

Tilson Office Floor Plan A1
Tilson Office Wall and Door Schedules A2
Tilson Office Work description A3
Tilson Office supporting photos A4

This is a very small project therefore no architect is involved. All existing life and safety currently supporting Tilson's office will remain. No changes will be made to the existing sprinkler system, the existing lighting, the existing emergency and exit signs. The existing structure is not being modified.

If you have any questions please don't hesitate to contact us.

Thank you,

Karen James
