Proposed Uses of Structure: Retail store/building changing rooms

Square footage of structure: Total floor: 1761 sq ft Changing rooms: (2) 27.06 sq ft room changing rooms

- ◆ We will build a side by side changing room with a 2X4 construction/16" on center/headers above both doors.
- ◆ The doors will be left hand swing. The door will be a six panel solid pine door/30" width by 78" height.
- ◆ I am putting in tongue and groove 1X6-8 ft knotted white pine for the interior, exterior, and division walls.
- ◆ Changing rooms will have open tops with basic trim for appearance.
- ◆ There will be a 3 light chandelier in each changing room. The electrical will be completed by a local contractor.
