Hi Jeanie,

On Fri, Nov 18, 2016 at 9:31 AM, Jeanie Bourke &lt;jmb@portlandmaine.gov&gt; wrote:

Hi Tim,

My apologies for the delay in the permit review, I am looking at this now and have some questions:

1. I do not see any specifications on the windows in the submitted documents including dimensions, and insulating factors. The scope states that 3 of the windows will have newly constructed RO in the existing MO, are you just replacing damaged material?

**\*\*Please see attached file for window details. I am replacing six windows. The ROs are being rebuilt as per engineered drawings attached to the original permit submission.\*\***

2. Are any of the windows in a hazard area that would require safety glazing, such as near stairs, tub/showers, doors, etc.

**\*\*None of the windows are near any hazardous areas.\*\***

3. Are all of the sill heights above 24"? If not there will need to be hardware to restrict the amount of opening (barrier devices).

**\*\*Yes. All of the sill heights are above 24".\*\***

With this information I will be able to approve this permit in short order.

**\*\*Thank you for your email. Please let me know if you have any questions.**

Sincerely,  
Tim Gilbert\*\*

Thank you for your time,

Jeanie Bourke
