Hi Ann:

We agreed in planning that the site plan review for this garage would be done when they come in for a permanent structure. The HP Board did look at the structure and Deb or Rob can give you a copy of the Board's decision. For this temporary structure and since it went through HP review, I am not requiring a site plan application.

Thank you.

Hi all,

Attached is the decision made by the HP Board at the April 26 after-the-fact public hearing. I also uploaded it to the documents in eplan - 2017-00383.

The expectation is that in the next two years they will plan, design, and get permits for a permanent structure of some sort.

Let us know if we can answer any other questions.

Thanks,

Rob
