Hi Stephanie,

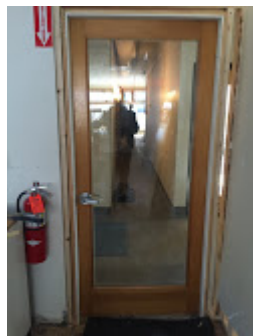

To complete your commercial tenant fit up application, please submit the following information and plans:

1. Please sign and date the signature page of your General Building Permit application (page 3). Signed document attached.
2. Submit the Commercial Interior Alteration Checklist with any requested information that pertains to your project. Signed document attached.
3. Your plan does not contain a lot of details. More details on attached drawing. Are the new walls you plan to install associated with the closet? They are not. Please send framing details for the closet/walls you plan to build. 2 x 4 stud construction, non bearing, partition walls, drywall sheath. Also provide information about the door(s) you plan to install - dimensions and product information. Two (2) doors, both 36" x 80", wood, single light, and are the same doors from the previous tenant, saved from demolition and relocated. Picture attached. How many doors are you adding - just the door on the closet? 2 doors: entrance door and closet door, identical. See attached plan with dimensions and notes.

Let me know what else you might need. I'm sure I missed *something*...

Terry
