Requirements for Aboveground Storage of Flammable and Combustible Liquids are in Title 25 MRSA \$2481, et seq., 16-219 CMR Chapter 34 Rules and Regulations for Flammable and Combustible Liquids, NFPA 30 Flammable and Combustible Liquids Code, NFPA 30-A Code for Motor Fuel Dispensing Facilities and Repair Garages, and NFPA 385 Standard for Tank Vehicles for Flammable and Combustible Liquids.

The facility must be built according to the plans and specifications submitted with this application and approved by the Office of the State Fire Marshal. Changes to the plans and specifications must be approved by the Office of the State Fire Marshal before they are implemented.

Plans and Specifications for a facility with an aggregate capacity greater than 1320 gallons must be certified by professional engineer.

Application Fee: \$15. per site, not per tank.
