(General)

[Signature]

Note: Fabric and/or materials described on this certificate are intended to illustrate one solution offered. Due to the number of potential fabrics that can illustrate flame retardancy, this fabric choice is particularly intended to illustrate one alternative. We do not represent the strength of any other fabric mentioned in this certificate. We do not have a license to license our facility, to license the name used. Certificate must be transferred to recipient to appear clear of any other but figure in electrical wiring.
