

BaoBao Dumpling House Sign Permit
133 Spring St., Portland, ME

Cecile Stadler 299-2068
cecile@tao-maine.com

The proposed sign will be erected in the center brick rectangle at the top of the building front as indicated below:

The sign will be [2 ft sq wood](#) and mounted via a simple non-moving [bracket](#) as shown →

The sign will be illuminated by 2 sm 3in sq LED black (shown in bronze) spot lights from the adjacent brick rectangles.

Both the sign and the lights are being located in the same locations as the previous West End Deli tenant. Please note that we have spent considerable funds to restore the entire storefront, including removing external wiring runs, point the brick façade, replace and/or repair all the windows, so the front of the building is considerably better than before.
