To Whom It May Concern:

Please see attached a building/change of use permit, along with an HVAC Permit, for work being done at 106/108 High Street in Portland.

An electrical and plumbing permit (for installation of bathroom) is to follow given directly by those contractors. Our contractor for gas (HVAC) work is Patriot Mechanical - Beau Montgomery - a licensed gas technician.

Please see the cover letter for a more in depth overview of the permitting plan for High Street.

Please feel free to email at this address for any further questions or clarifications. I will call for payment as soon as the permit application is accepted; if payment arrangement is necessitated in a different fashion, please feel free to email and I will be happy to arrange any method that is most convenient for the City.

Thank you,
Jack & Dan Soley
