Mrs. Loris M. Madson,  
RFD #1  
Gorham, Maine

Subject: Application for building permit to  
make alterations on third floor of apartment  
house at 78 Danforth Street

Dear Madam:

This permit cannot be issued under the Building Code because the proposed change would leave the occupant of the new lodging room with only one exit (via the front stairs). You not only must make this change but you must not allow this room in question to be occupied by any others than the family now occupying the rear apartment on third floor. The occupants of the other two rooms would not even be allowed to rent this third room out separately to a lodger outside of their own intimate group because the occupants of this room must depend upon passage through the other rooms of the rear apartment to reach the rear stairs which is the only second means of egress.

If you will return the receipt for the fee paid to this office not later than March 11, 1944, your money will be refunded by voucher.

I find that you have made a somewhat similar change in the front apartment on the third floor by permanently closing the door between the kitchen of the apartment and the room toward High Street and renting this latter room to others than the occupants of the other two rooms in what was a three room apartment. By doing this you have obstructed or caused to be obstructed the second exit (via the fire escape) of the occupants of this room toward High Street, leaving them with only one way out via the front stairs. Formerly these three rooms were all one apartment, occupied by one family, and whatever member of that family happened to be in this room toward High Street had a choice of leaving the room and the building by the front stairs or by passing through the other two rooms of their own apartment and reaching the fire escape.

By this act of renting this room separately you have placed yourself in violation of Section 503 of the Building Code relating to the maintenance of buildings for safe exit of the occupants.

If you do not change this situation back forthwith and any other similar arrangement of the building to the original design so that all occupants have at least two adequate means of egress to the ground, it will be my duty to proceed against you in Municipal Court for violation of the Building Code.

Very truly yours,

M.C./H

June 15, 1938

Miss Maidea Hersey,  
78 Danforth Street,  
Portland, Maine

Dear Madam:

Before we can issue the permit to build an addition to the garage at 78 Danforth Street, it will be necessary for you to furnish the size of the timber which will be provided over the new opening in the rear wall of the existing garage to support a part of the present roof and half of the new roof. This timber must be of such size as to properly support all loads which will come upon it.

Mr. Skinner has now applied for an all-metal addition, but he says that your carpenter is to put in this header or timber.

Please let us have this information promptly.

Very truly yours,

EMCD/H

Handwritten number 1360

cept. 10-1

June 10, 1938

Mr. John Gominacos,  
113 Pearl Street,  
Portland, Maine

Dear Sir:

Because the garage of Mr. Sawyer at 78 Banforth Street is located within the limits of Fire District No. 1, I am not allowed under the Building Code to give a permit for the construction of the addition using wood in the outside walls. I can readily understand why the owner would not ordinarily desire to build this small addition of non-burnable construction in the outside walls, but that does not alter my authority under the ordinance.

I suggest that Mr. Sawyer not appeal rights to the Municipal Officers under the Building Code and can, by filing his appeal in this office, ask for special permission from the municipal officers to waive the addition of frame construction, and the Municipal Officers have authority under the ordinance to vary the requirements of the ordinance in this particular case and instruct me to issue the permit for the addition about as he has applied for it.

Mr. Sawyer is receiving a copy of this letter and if he desires to file the appeal he can do so by coming to this office any day other than Saturday between the hours of one o'clock and three o'clock. If he will file the appeal before Tuesday, June 14th, he will no doubt get a decision from the Board at their meeting scheduled for June 22nd.

In the meantime if you intend to go ahead with the addition you should indicate definitely how you propose to support the roof or upper part of the building at the point where the rear wall will naturally be cut out to give access to this proposed addition. With this information should be given enough of the framing of the roof of the garage so that we may be able to calculate how much load will actually come on this supporting timber.

Very truly yours,

Inspector of Buildings

WMSD/H  
CC: Emerg. Sawyer

P.S. Please take your location plan over on a staller piece of paper and of the kind of paper more substantial for filing. The one supplied here was put on the back of wallpaper and is already torn quite badly as such paper is not intended for such purposes, and we cannot use it in our files.

Warren McDonald

DEPARTMENT ACCOMMODATING APPLICATION FOR BUILDING PERMIT

for addition to garage  
at 72 Danforth Street

Date 6/9/38

1. In whose name in the title of the property now recorded? Emery R. Sawyer
2. Are the boundaries of the property in the vicinity of the proposed work shown clearly on the ground, and how? Fence
3. Is the outline of the proposed work now staked out upon the ground? Yes If not, will you notify the Inspection Office when the work is staked out and before any of the work is commenced?
4. What is to be maximum projection or overhang of eaves or drip? 4"
5. Do you assume full responsibility for the correctness of the location plan or statement of location filed with this application, and does it show the complete outline of the proposed work on the ground, including bay windows, porches, and other projections? Yes
6. Do you assume full responsibility for the correctness of all statements in the application concerning the sizes, design and use of the proposed building? Yes
7. Do you understand that in case changes are proposed in the location of the work or in any of the details specified in the application that a revised plan and application must be submitted to this office before the changes are made? Yes

SPRINKLER PLANS ACCOMPANYING APPLICATION FOR BUILDING PERMIT TO OVER ALTERATIONS  
IN THE BUILDING OF HAZEL BARBER AT 73 BUNFORD STREET

March 25, 1933

1. These specifications are to be considered as much a part of the application for the permit as though written on the application form, but failure to mention any requirement of the Building Code herein shall not relieve the owner or any of his agents or the contractor from compliance therewith.

2. The fire door in the cellar will be metal covered all over with locked joints, and the door frame will either be of structural metal or metal covered all over in a fashion similar to the door. The door will be self-closing, that is normally closed and kept closed by a door check or other approved device.

3. Each of the three new bathrooms will be ventilated by means of a galvanized metal duct extending through the roof of the building, the cross-sectional area of the duct at every level to be equal to 56 square inches for each bathroom connected thereto below.

4. The ovens of all gas ranges in the building will be connected to one or more vertical ducts extending through the roof of the building. Wherever these vertical ducts or any of the branch connections from the ranges will not be exposed to view at all times, the ducts and branches will be made of wrought iron or cast iron. The size of the vertical flues or ducts will not be less than one square inch in area for each 15 cubic feet of gas per hour capacity of appliances connected thereto.

5. The new fire escape will comply with Building Code requirements for standard fire escapes in every particular and all parts of the fire escape will be at least four feet from the easterly side property line.

6. Fire extinguishers of some type labelled and approved by the Underwriter's Laboratories, Inc. will be provided as follows: one in the cellar, one in the front hall in each of the first, second and third stories and one on the fourth floor in a place accessible from each room there, a total of five.

7. Both front and rear halls and stairhalls will be equipped with sufficient electric lights on the owner's meter so as to adequately illuminate the way out of the building, and these lights will be kept burning from sunset to sunrise each night.

8. There are three lodging rooms on the fourth floor. The balcony of the new fire escape will be constructed so as to provide access directly to it from windows in two of these rooms. A bolt with knob for operating it will be placed on the door of one of these rooms having direct access to the fire escape and other locks removed from that door. This door will have a thin glass panel in it with a notice on the panel to be read from the hall side as follows: In case of fire break the glass and turn the knob to reach the fire escape. All of this is to provide a second means of egress for the third lodging room on the fourth floor.

E. R. Sarrige

March 25, 1931

1. These specifications are to be considered as such a part of the application for the permit as though written on the application form, but failure to mention any requirement of the Building Code herein shall not relieve the owner or any of his agents or the contractor from compliance therewith.

May 20, 1927

Mr. Fred W. Dow  
12 Monument Square  
Portland, Maine

Dear Sir:

Attention Mr. George.

Referring to your application for a building permit to cover the erection of an addition at the recent private garage at 73 Lenforth Street, this addition is supposed to be of third class construction. Since the location is within the limits of Fire District No. 1, the work is expressly forbidden by Sections 318 and 319 of the Building Code. This permit is therefore denied.

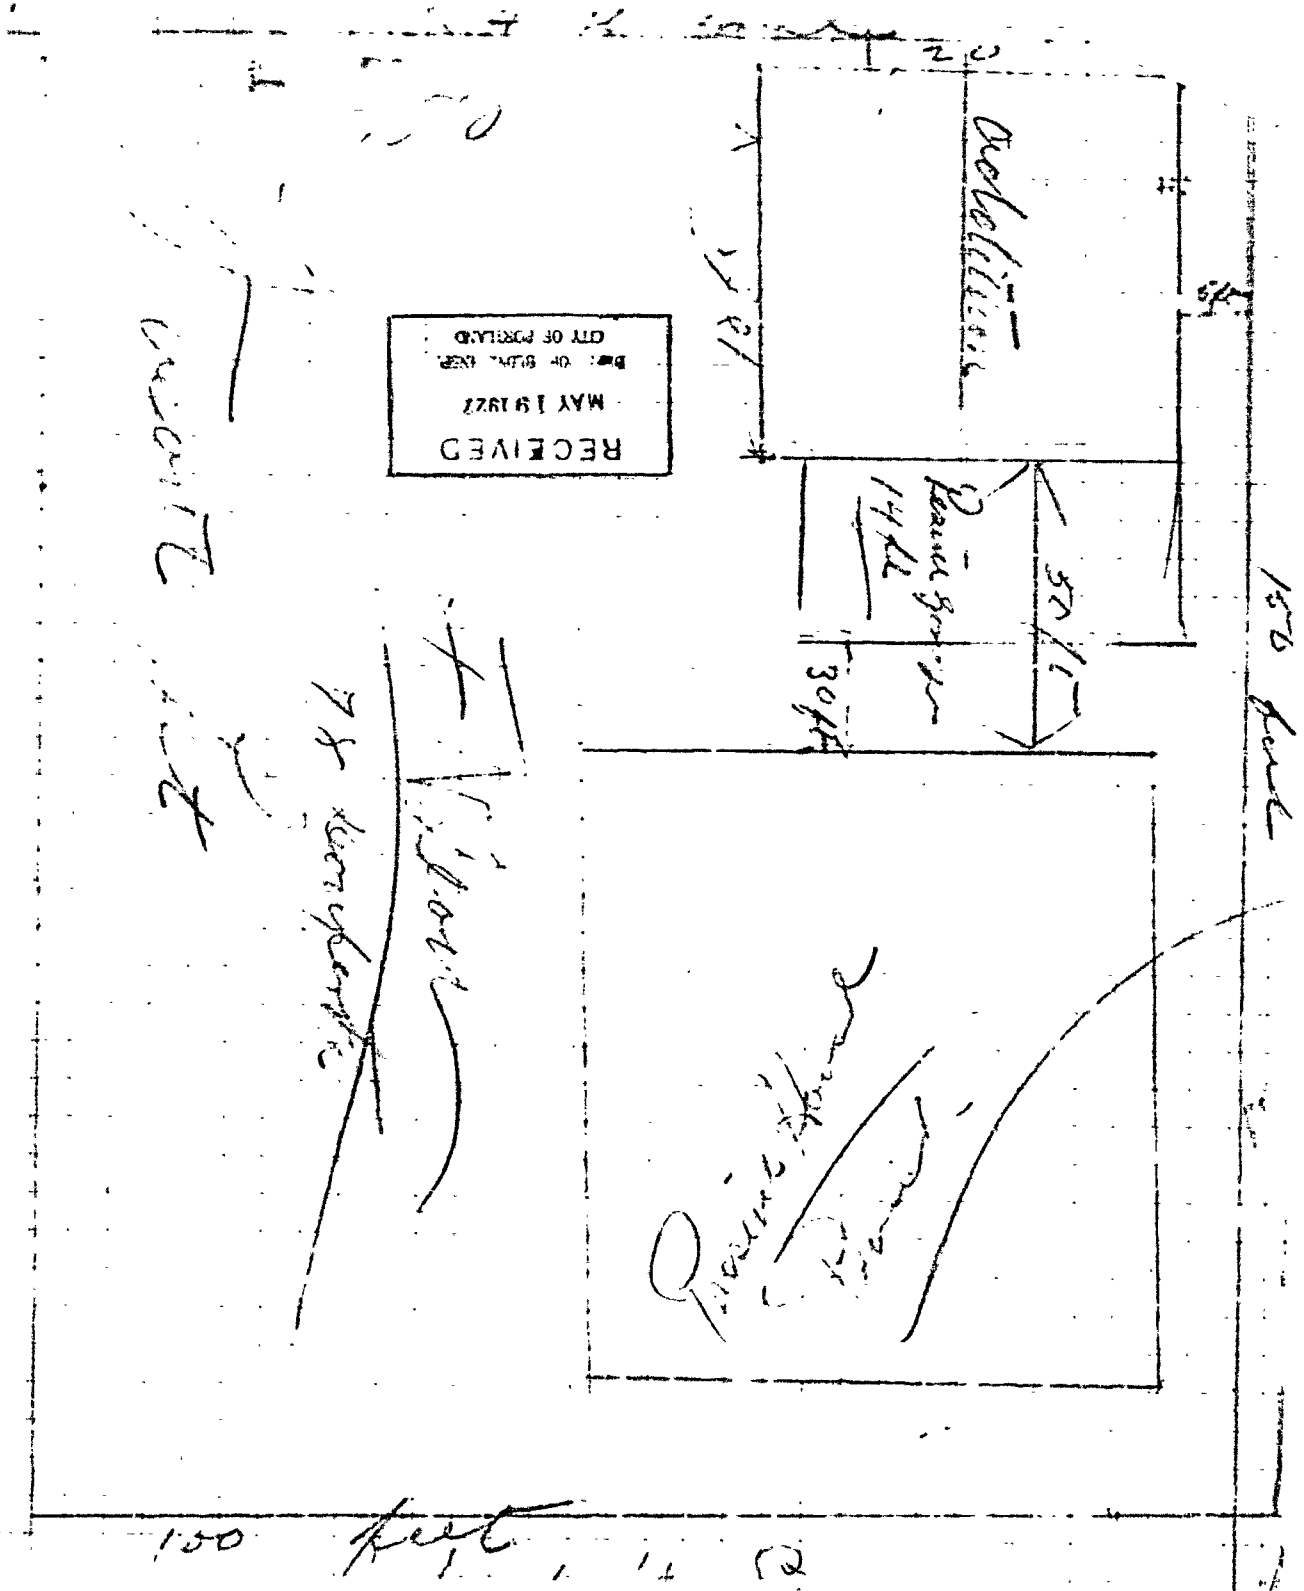

The addition may lawfully be built of recent class c construction as defined in Section 237 with the special provision that the exposed wood-work around the eaves shall be covered with metal or other equally fire resistive material.

The permit will be held in this office pending further instructions from you. If you do decide that you will not proceed with the work, the fee paid to this office will be refunded if you will return the receipt on or before May 23.

Yours truly,

Inspector of Buildings

Portland, Maine

Attention Mr. Beauce.

Dear Sir:

Inclosed is the building permit covering erection of an addition to your private garage at 78 Manforth Street. It is noted that you propose to use a concrete slab for the foundation. We presume that this concrete slab was intended only when you were of the belief that you could build the building of wood. Under the Building Code, the foundation of this masonry wall must be at least two inches thicker than the masonry wall above and must extend well below frost.

Please arrange to comply with this requirement.

Yours truly,

Inspector of Buildings

With relation to permit applied for to demolish a 2-car wood & concrete garage  
at (address) 78 Danforth Street belonging to

(owner) same. It is unlawful to commence de-  
molition work until a permit has been issued from this department.

<sup>313</sup>  
Section 6 of the Ordinance for rodent and vermin control provides, "It shall be  
unlawful to demolish a building or structure unless provision is made for rodent  
and vermin eradication. No permit for the demolition of a building or structure  
shall be issued by the Building and Inspection Services Department until and  
unless provisions for rodent and vermin eradication have been carried out under  
supervision of a pest control operator registered with the Health Department."

The building permit for demolition cannot be issued until the provisions of this  
section have been satisfied. It is the obligation of owner or demolition contrac-  
tor or both to take up with the Health Department the matter of complying with  
this section, being prepared to inform that department what registered pest control  
operator is to be employed.

NOTICE - PER MUNICIPAL CODE  
A PERMIT TO DEMOLISH OR REMOVE A  
STRUCTURE SHALL EXPIRE THIRTY (30)  
DAYS AFTER THE DATE OF ISSUANCE.

Very truly yours,

P. Samuel Hoffses  
Chief of Inspection Services

Health Department comments: No vermin. No asbestos.

O.K. for demo.
