We are "Not" intending to make any structural changes to the floor plan that was included. The two rooms will continue operation with use of the existing floor plan.

The checklist was reviewed with Ann and I submitted the items that she indicated need to be addressed base on our usage and the preexisting layout of the space.

Please advise if there is anything else required – Thanks, Rory

Also, it seems you may be missing several items on the checklist. Were you intending on making ANY structural changes? If so, please provide documents required and requested on the checklist. This permit application is basically sent to us with the intent that you are *only* requesting a change of use. You will receive a confirmation e-mail and invoice when it has been entered. Please see attached for any questions in regard to the process.

>>> Building Inspections 10/2/2014 8:03 AM >>>

Please note: hood systems have their own permit. If you intend on installing any commercial grade hood fire suppression, you will need to provide a completed application.

Please find attach the application and related documents for the change of Use Application for 54 & 52 Danforth

All the best, Rory

Notice: Under Maine law, documents - including e-mails - in the possession of public officials or city employees about government business may be classified as public records. There are very few exceptions. As a result, please be advised that what is written in an e-mail could be released to the public and/or the media if requested.
