ATT: Tank Removal Notice
Maine Department of Environmental Protection
Bureau of Oil and Hazardous Materials Control
State House Station #17
Augusta, ME 04333

RE: Request For Waiver of 30 Day Rule
Tank Removal Notification

To Whom It Concerns:

Please find enclosed NOTICE OF INTENT TO ABANDON (REMOVE) AN UNDERGROUND OIL STORAGE FACILITY applications for the following:

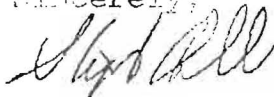

1. Registration #0960 - Yarmouth Fuel.
2. Registration #4111 - North Windham Puffin Stop
3. Registration #0413 - DownEast Energy Office Building
4. Registration #0413 - Farmington Road
5. Registration #0413 - Oak St. Mill, Portland

I hereby request that the department waiver the 30 day notice requirement for the following reasons:

1. It is late in the year and I would like to remove the tanks before we run into frost and winter conditions.
2. These tanks are out of compliance and I would like to correct this situation as quickly as possible.

If you have any questions, please give me a call at 1-800-244-5585.

Sincerely,

Stephen Hall

RE: New Tank Installation
Registration #8334
101 York Street
Portland, ME

Dear Mr. Wallentine:

Please find enclosed the original copy of the REGISTRATION OF UNDERGROUND STORAGE TANKS for a new UST system installation at the above referenced site. I have enclosed our check for \$50.00 covering the cost of the registration of the tank.

We have selected Les Wilson and Sons, Inc. of Westbrook, Maine as the contractor. The names and license numbers of those installers that will be working on the job are as follows:

1. Robert Wilson #017
2. Ronald Wilson #299
3. Richard Hazel #297
4. Stephen Redmond #321

If you have any further questions, please give me a call at 1-800-244-5585.

Sincerely,

Steve Hall

Dear MR. HALL:

This letter is to acknowledge that on 13 DECEMBER 1994 this Department received your completed registration materials for a new or replacement underground oil storage facility or ancillary equipment located at YORK STREET MOBIL. Maine statute dictates that the installation may take place five (5) business days after notification (38 M.R.S.A., Section 563.1.A). This installation may begin on 19 DECEMBER 1994. I have assigned your registration the following interim number INT 94-297. Have a copy of your registration and display this letter in a prominent place during construction.

NOTE: Check with your tank installer to ensure that your installation is in conformance with all Federal Regulations that are in effect as of December 22, 1988. For questions concerning the Federal Regulations, call the E.P.A. Hot Line at 1-800-424-9346.

Sincerely,

RE: **Harborview Pizza**

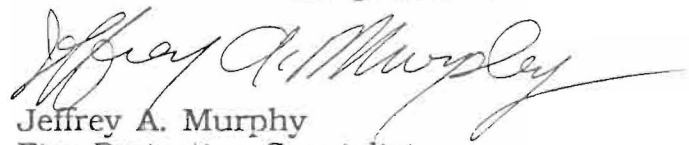

Dear Mr. Hall:

This is to inform you that your self-service station plans for the above-named facility have been approved by this department.

Approval of these plans is granted after examination under the requirements of the State of Maine, Department of Public Safety Special regulations for Attended Self-Service Gasoline Dispensing Stations without regard to adequacy of design or workmanship. The completed facility is subject to periodic inspections for operational use.

Be sure to check with local officials for any other requirements of local ordinances.

Yours for better fire protection,

Jeffrey A. Murphy

State Fire Marshal

REGULATIONS FOR SELF-SERVICE GASOLINE DISPENSING STATIONS

1. Every person, firm or corporation who intends to construct, reconstruct, convert or alter any service station to provide attended self-service gasoline dispensing shall furnish the Office of State Fire Marshal with plans of such proposed station that shall include the location of the pump island in respect to the control console and location of fire extinguishing control.
2. Every gasoline service station shall be under the direct control of the owner, operator or duly authorized employee who shall be on duty at all times when gasoline is being sold or dispensed.
3. Each installation shall be equipped with a fixed fire extinguishing system installed in accordance with the appropriate NFPA Code. Said system shall provide protection for all pumps in the dispensing area. Each extinguisher head shall be installed in such a manner that an accumulation of ice or snow will not adversely effect the proper functioning of the system.
4. The number of nozzles capable of simultaneous operation may not exceed sixteen nozzles per operator on duty in islands open to use, and no more than eight nozzles may be used at one time.
5. The controlling mechanism console and its related equipment are to be of an approved type.
6. Gasoline shall be dispensed only by a competent licensed motor vehicle operator or by a qualified station attendant.
7. Instructions for the operation of dispensers shall be conspicuously posted, and in addition, signs bearing the words "Extinguish All Smoking Materials; Shut off Engine" in block letters at least two inches (2") in height shall be conspicuously posted at both ends of the pump island visible to approaching vehicles.
8. The controlling console providing power to the pump motor is in constant attendance by the owner, operator or duly authorized employee at all times while gasoline is being dispensed and is properly protected against physical damage from motor vehicles.
9. There shall be constant contact by the control console operator and the pump island by means of inter-communication system which shall be maintained in proper operation condition at all times.
10. The control console operator must observe the filling operating of each vehicle. Mirrors are not acceptable as providing adequate visual control.
11. The control console shall include a disconnect switch which will instantly cut off all pumping power.
12. No other method of self-service gasoline dispensing will be permitted.
13. The municipal fire officials of the city or town in which a proposed self-service station is to be located shall be informed of such proposal and the requirements of all local ordinances must be met.
14. Fees for the review and approval of required plans shall be charged under the provisions of Title 25, Section 2450. Approval to be posted on site.
15. A listed, automatic-closing type hose nozzle valve with latch-open device may be installed.

REGISTRATION OF UNDERGROUND STORAGE TANKS GENERAL INFORMATION

The purpose of this registration program is to locate and evaluate underground tanks that store or have stored petroleum products, chemicals and hazardous substances. Notification is required for all underground tanks that have stored these regulated substances and that are in the ground as of February 1, 1986, and for all tanks that have planned to be installed underground after that date. The information you provide may be based on reasonably available records, or, in the absence of such records, to the best of your knowledge or belief.

1. Who must register an underground oil storage tank?

State Law (38 M.R.S.A., Section 563) requires that everyone who owns an existing, new, or replacement underground oil storage facility and tanks must register their tanks with the Department of Environmental Protection. A facility or tank is existing if it is fully installed as of March 1, 1985. Registration for existing facilities and tanks must be completed by February 1, 1986. Registration of new and replacement underground oil storage facilities and tanks must be completed five (5) business days prior to installation. If the ownership of an existing tank is uncertain or in dispute, the law considers the current owner of the property where the tank(s) are located to be the tank owner. The property owner is therefore required to register the tank.

Federal law (Section 9002 of the Resource Conservation and Recovery Act [RCRA]), as amended, also requires that, unless exempted, owners of underground tanks that store regulated substances must notify the State agency regulating tanks (in Maine the Department of Environmental Protection) of the existence of their tanks. This requirement applies to owners of underground oil/hazardous material storage tanks used for storage on or after November 8, 1984. It also includes owners or former owners who discontinued the service of such tanks after January 1, 1974. If you are in doubt as to whether you are the owner of an underground storage tank, you are encouraged to register the tank using this form. By registering the storage tank, you as the possible owner will have satisfied the federal notice requirements of owners to register their tanks.

2. What tanks must be registered?

All tanks which meet the state or federal definition of underground oil storage or hazardous materials storage tank must be registered.

State law defines a tank as any container, 10% or more of which is beneath the surface of the ground and which is used, or intended to be used, for the storage or supply of oil, but does not include any tanks situated in an underground area if these tanks or containers are situated upon or above the surface of a floor and in such a manner that they may be readily inspected. For the purposes of State law, oil means petroleum products and their by-products of any kind and in any form including, but not limited to, petroleum, fuel oil, motor oil, sludge, oil refuse, oil mixed with other waste, crude oils, and waste oil and all other liquid hydrocarbons regardless of specific gravity.

Federal law defined tanks which store hazardous substances (virgin chemicals) in addition to tanks which store petroleum products. The following category of tanks are exempt from state and federal law:

1. Tanks installed in a concrete foundation where the tank is fully inspectable, i.e., 275-gallon tanks found in a homeowner's basement;
2. Septic Tanks;
3. Pipeline facilities (including gathering lines) regulated under the Federal Natural Gas Pipeline Safety Act of 1968, or the Federal Hazardous Liquid Pipeline Safety Act of 1973, or which is an interstate pipeline facility regulated under State laws;
4. Surface impoundments, pits, ponds, or lagoons;
5. Storm water or waste water collection systems;
6. Flow-through process tanks;

7. Liquid traps or associated gathering lines directly related to oil or gas production and gathering operations; and
8. Storage tanks situated in an underground area (such as a basement, cellar, mineworking, drift, shaft, or tunnel) if the storage tank is situated upon or above the surface of the floor.

3. What substances are covered?

All liquid petroleum and petroleum products are included by state law. Federal law also includes any substances defined as hazardous substance in Section 101(4) of the Federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA). With the exception of those substances regulated as hazardous waste under Subtitle C of RCRA.

For questions about whether a chemical is considered a hazardous substance, call the Maine Department of Environmental Protection at 1-289-2651 or the Federal RCRA Hotline at 1-800-424-9346.

4. Where do you register?

Owners of underground storage tanks must register their underground tanks with the Maine Department of Environmental Protection, Bureau of Oil and Hazardous Materials Control, State House Station #17, Augusta, Maine 04333—ATTN: Tank Registration Section.

Owners must also file a copy of the registration form for petroleum storage tanks with the local fire department having jurisdiction for their area. Owners should also keep a copy at the facility.

5. When must one notify?

Owners of existing underground oil storage tanks must register by February 1, 1986. Planned new or replacement facilities must be registered five (5) business days prior to installation. All other tanks and facilities regulated by the Federal government but not by the State must be registered by May 8, 1986. These include tanks and facilities used for chemical storage and nonoperational oil and chemical tanks.

6. Penalties:

The registration of all underground storage tanks is critical to developing a sound environmental program for managing and locating these tanks. For this reason, the Legislature has required that late fees and penalties be assessed to owners who neglect to properly register their tanks.

After May 1, 1986, all tanks regulated by the State shall pay a penalty three (3) times the amount of the normal registration fee for not registering the tanks. For tanks not subject to registration fees, this penalty is \$50.00 per tank. All owners operating unregistered tanks after May 1, 1986 are subject to State civil penalties not to exceed \$10,000 per day per tank.

In addition, all tank owners subject to the Federal notification requirements who knowingly fail to notify or submits false information shall be subject to a federal civil penalty not to exceed \$10,000 for each tank for which notification is not given or false information is submitted.

7. Questions and Assistance:

For assistance in answering questions regarding these regulations call (207)289-2651 and ask for someone in the Tank Program.

8. Re-Registration:

Tanks/facilities must be re-registered under the following conditions:

- a) sale or transfer of property
- b) modification to existing facility, i.e., new tanks, piping, change of product storage, etc.

9. What Registration fees are required?

Registration fees are required on marketing and distribution tanks only. The fee must be paid on the initial registration and annually thereafter. All payment should be made to the State of Maine Groundwater Fund; and paid prior to January 1 of each year.

10. Late payments:

Payments made after January 1 are liable for a late registration fee of three (3) times the normal registration fee.

RECEIVED
DEC 16 1994

DEPARTMENT OF ENVIRONMENTAL PROTECTION
 REGISTRATION FORM FOR UNDERGROUND OIL
 AND HAZARDOUS SUBSTANCES (CHEMICAL)
 STORAGE TANKS
 (Pursuant to 38 M.R.S.A. Section 563, 40 CFR Part 280)

1. REGISTRATION NUMBER: 04104 STATE USE ONLY
 (Complete only if a registration has been previously assigned by the Department of Environmental Protection.) DATE OF REGISTRATION: / /

2. FACILITY INFORMATION

- A. Name of Facility: YORK STREET MOBIL
 B. Street Address of Facility: 101 YORK ST.
 C. Town/City where facility is located: PORTLAND
 D. Mailing address: DOWNEAST ENERGY
PO BOX 8490, PORTLAND, ME 04104
 E. Zip Code: 04104 F. Telephone: (207) 799-5585
 G. Directions to Facility: CORNER OF YORK & HIGH ST/NEAR COMMERCIAL ST.
 H. Are any planned or existing tank(s) (including piping and pumps) within 1000 feet of a public water supply source? Yes No X
 I. Are any planned or existing tank(s) (including piping and pumps) within 300 feet of a private water supply source? Yes No X
 J. (Complete if the answer to (I) above is YES.) Is the water supply which is located within 300 feet of the tank(s) owned by someone other than the facility owner or operator? Yes No
 K. Is the facility located on a sand and gravel aquifer or recharge area as mapped by the Maine Geological Survey? Yes No X

(If you wish assistance in answering item (K), please call the Department at (207)289-2651. Sand and gravel aquifer maps can be reviewed at any of the Department's offices or purchased at a nominal fee from the Maine Geological Survey, State House Station #22, Augusta, Maine 04333, (207)289-2901.)

If the answer to item (H), (J) or (K) above is yes, the facility is in a sensitive geologic area requiring certain conditions for tank installation. A new or replacement tank used for marketing and distribution of oil in such an area requires secondary containment or ground water monitoring.

NOTE: The installation of 21,000 gallons or greater combined tank capacity, on a significant sand and gravel aquifer requires the installation of 360° double containment tanks and piping with interstitial monitoring.

Registration fees are applicable ONLY to active, new, or replacement tanks used for the MARKETING AND DISTRIBUTION OF OIL. Registration fees are due upon registration and annually thereafter, prior to the FIRST DAY OF JANUARY. Fees are as follows:

Number of Tanks _____ 6,000 gallons or under in size at \$25.00 per tank = \$_____.

Number of Tanks 1 over 6,000 gallons in size at \$50.00 per tank = \$ 50.00.

Fee Computation Worksheet:

a. _____ # tanks 6,000 gallons or under in size at \$25.00 per tank = \$_____.

b. _____ # tanks over 6,000 gallons at \$50.00 per tank = \$_____.

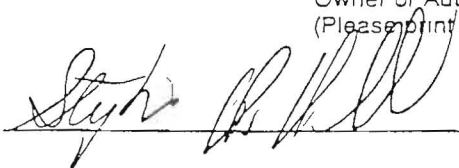

c. Total Annual Fee due — add a & b = \$ 50.00.

7. MAKE TWO (2) COPIES OF THIS FORM. Submit the original to the Department of Environmental Protection (Bureau of Oil and Hazardous Materials Control—State House Station #17, Augusta, Maine 04333). SEND ONE (1) COPY TO THE LOCAL FIRE DEPARTMENT having jurisdiction. RETAIN THE THIRD COPY FOR YOUR RECORDS. For new and replacement tanks, registrations are due at least five (5) business days prior to installation.
8. Complete the next two (2) pages of this form and include each tank currently at the facility and each new or replacement tank planned for the facility.
9. CERTIFY THIS FORM BY SIGNING. By signing this form, I, the tank registrant, certify that all information is accurate and complete to the best of my knowledge, and that I will comply with all applicable federal, state, and local laws and regulations concerning the underground storage of petroleum or other hazardous materials. The owner or operator is required by Maine statutes to file an amendment to this registration with the Department of Environmental Protection immediately upon any change of information contained in this form.

Date: 11/29/94
