

- ### GENERAL NOTES
- Mechanical Contractor shall coordinate work with all other trades.
  - All piping and ductwork shall be run concealed and on the warm side of building insulation unless shown otherwise.
  - Piping and ductwork is shown diagrammatically. Exact locations to be adjusted as required to conform to field conditions.
  - All duct sizes indicated are outside (sheet metal) dimensions.
  - All cutting and patching by the General Contractor.
  - All square duct elbows over 12 inches in width to have turning vanes.
  - All motorized dampers and duct smoke detectors shall have duct access doors as large as possible up to 12"x12".
  - All dimensions associated with existing conditions are approximate and are to be field verified.
