RE: 390 Commercial Street – Fender pile replacement
CBL: 042 D002

Dear Mr. Tamaki:

I am in receipt of the letter you submitted to this office dated May 10, 2010 from Prock Marine Company. The proposed work on the pier includes the removal of fifteen (15) existing fender piles to be replaced in kind with 12-3-6 oak fender piles, and to re-bolt four (4) existing fender piles. They will also remove and replace forty four (44) feet of 6"x 6" timber curb.

I spoke with Stephen Durrell of Prock Marine on your phone while in this office and he confirmed that the fender piles do not provide structural support for the pier; they flank the pier as a protection from ships while berthing. The timber curb is to protect motorized equipment from falling off the pier.

I have confirmed with the director of this department that the work proposed on the letter dated May 10, 2010 from Prock Marine Company does not require a permit from this office.

Thank you for inquiring on this matter. If you have any questions, contact me at 874-8703.

Sincerely,

Jeanie Bourke

Proposal/Acceptance

Dear Atchan: /

Prock Marine Company is pleased to submit their quote to furnish all labor, material and equipment to remove fifteen (15) existing fender piles and replace them with fifteen (15) 12-3-6 oak fender piles. There are four existing fenders that need to be re-bolted. We will also remove and replace forty four (44) feet of 6" x 6" timber curb.

Quote \$33,340.00
If Prock has a barge in the Portland area - Quote \$25,640.00

If you desire more than fifteen (15) fenders replaced add \$905.00 per pile.

All permits will be done by others. This quote is good for thirty (30) days. If you have any questions please call me.

Sincerely,
Prock Marine Company

Stephen Durrell
