Re: General Marine Construction, 450 Commercial St., Portland ME 04101

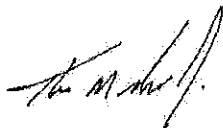

Dear Jason,

This is a confirmation letter that we have received a deposit and are under contract to make the fire sprinkler protection system deficiency corrections at the referenced location for building 4, to be protected by an automatic sprinkler system.

We will do our best to complete the permitting by August 14th, 2018 and work completion by October 1st, 2018. However due to the current work load this may not be possible.

Sincerely,

Dean & Allyn, Inc.

Tom Heaward
Service Manager
