Memorandum from Department of Building Inspection, Portland, Maine

September 23, 1958

32 High Street

Hasco Mfg. Co.
Pride's Corner
Westbrook, Maine

cc to: James McPherson
32 High Street

Gentlemen:

Building permit to construct one car garage 12x22 at the above location is issued herewith but subject to the condition that all wood trim around doors and windows including window sills is to be covered with metal similar to covering specified for eaves.

Very truly yours,

TTR/jc

Theodore T. Rand
Deputy Inspector of Buildings

September 19, 1958

AP-32 High Street

Hasco Mfg. Company
Pride's Corner
Westbrook, Maine

cc to: James McPherson
32 High Street

Gentlemen:

We are unable to issue a permit for construction of a wood frame one-car garage 12 feet by 22 feet on the lot with the dwelling at 32 High Street because neither the construction nor the location complies with the requirements of Fire District #1 in which the property is located.

Section 402-b-11 of the Building Code permits a building of the size indicated to be of wood frame construction only if the cornice and exterior walls, except window sash and except doors 21 square feet in area, are covered inside and outside with sheet metal or equivalent incombustible material, and only if the building is not located closer than 10 feet to any existing building of wood frame construction or closer than 5 feet to any private lot line or to any existing building of more fire resistive construction than wood frame. Therefore, it is clear that unless compliance is to be provided with these requirements, a permit cannot be issued.

Very truly yours,

Albert J. Sears
Deputy Inspector of Buildings

AP 32 High Street

January 22, 1953

Eastern Oil & Equipment Co.,
27 Portland St.,
Mr. Charles Rosenbloom
179 Middle St.,

Location--32 High St.,
Owner--Mr. Charles Rosenbloom
Job--Installation of oil burner

Gentlemen:

An inspector from this office found at the above job on January 17, that no instruction card relating to the maintenance and operation of the oil burning equipment had been posted near the oil burner assembly, as required by law. We realize that this is not a new burner, but nevertheless this regulation must be complied with, and no doubt the instruction card for this particular model of burner can be secured from the manufacturer if not from the local distributor.

If this instruction card is not in place, to comply with the requirements and with the agreement of the installer when he signed the application for the permit, before February 13, will Mr. Rosenbloom be good enough to notify this office of that fact.

Very truly yours,

WMcD/B

Warren McDonald
Inspector of Buildings

Mr. Cipriano:

Because of a question with regard to this job, our inspector looked the situation over before the building permit was issued and found the burner completely installed except for the instruction card. This, of course, is in violation of the law, but the belated permit is enclosed herewith, and it is my hope that you will somehow persuade your organization to be more cooperative.

Warren McDonald
