

Location; Catherine Morrill Day Nursery, 96 Danforth St., Portland, Maine

Scope of work for Catherine Morrill Day Nursery Radio Box

Securadyne Systems will replace the existing interior Master Box 4617 with an AES 7788F Radio monitoring a Silent Knight 5820XL, zoned per Portland standard and attached Master Box application. The system is also monitored by point at COPS monitoring.

Order of operations

Phase 1. Securadyne Systems will install the Radio Box, program the radio trigger relays, disconnects, and supervising FACP zone, then test same while leaving the masterbox intact.

Phase 2. Securadyne Systems will arrange for a visit with City Electrician to program and test the radio box, then disconnect the masterbox from the FACP.
