Jeremy,

As promised at the meeting yesterday, I attach the following:
Generic Stormwater Agreement
Stormwater Report (as submitted, first part only, and reviewed and approved)
Stormwater Report addendum re Inspection and Maintenance (as submitted, reviewed and approved)
Grading and Utility Plan (as to PB and approved)
Tree Filter Plan (as to PB and approved)
I think that the last 4 items should be attached to the Agreement.

Please prepare a draft of the Agreement (including filling in of the blanks and references to the attachments) and send to me as a "draft" - then I will run it by Legal and DPS as a final check on this.

While not urgent, it is useful to get this taken care of now.

thank you
Jean
