Re: 227 York Street

Dear Neighbors,

Please be advised that we are currently applying for permits with the City of Portland to demolish the existing residence at 227 York Street, and to construct a new residence in the same footprint. Please note that the project requirements include demolition and construction to conform to all pertinent City and State regulations, and that all debris will be contained on site until removal, and that site protections are integral to the project.

We will notify you at least one week before demolition begins, and will make every effort to minimize disruption to the neighborhood. Please do not hesitate to contact me with any questions you may have.

Sincerely,
