

TRADITIONAL WOOD

# Pergolas

## STANDARD FEATURES

Unstained pressure-treated pine wood, solid laminated 5x5 posts with decorative post skirts, solid 2x6 joists spans shorter side & 2x4 runners span longer side, both with scalloped ends and notched intersections to resist warping. Heavy-duty double 2x6 header with braces for rigidity, anchor brackets for concrete pad and wood decks.

10' X 16' TRADITIONAL Standard Unit with Cinder Stain

Your pergola is shipped as a compact, easy-to-assemble kit with all the necessary hardware and a detailed assembly manual.

*"Thank you for helping us choose our new pergola. We are now able to use a backyard area that we never used before! The added lattice provides a lot of shade. We enjoy sitting outside and having lunch with the kids. We chose your pergola because of its solid build and romantic feel. Thank you so much."*  
~ Doug & Mary

### Decorative Scallops

The joists and purlins are cut with these decorative ends for a finished and refined appearance.

### Braces

The braces make this pergola a strong and sturdy structure.

### Anchor brackets and Bolts

These powder-coated anchor brackets attach the pergola to your footer and includes concrete lag bolts.
