City of Portland Building Inspections,

Good morning. I hope you all had a good thanksgiving. Attached is a building permit application and construction drawings for a wireless antenna co-location proposed by Redzone Wireless with Tilson Technology Management performing the work. Redzone Wireless is looking to install 3 wireless LTE spectrum antennas for broadband internet service on the roof of the building at 638 Congress St., Portland, ME 04101, alongside existing U.S. Cellular antennas. Please see the attached files for a more in depth overview of the project. If there are any questions, please reach out. Thank you.
