Attachments: Permit App.pdf; Fast track permit.pdf; LS1 3rd floor life safety plan.pdf; AE 101 Floor Plan & Notes.pdf; E 001 Electrical Legend & General Notes.pdf; ED 101 Electrical Demo Plan.pdf; EP 101 Electrical New Work Plan.pdf; GI 001 Cover Sheet.pdf

Good afternoon.

Attached please find the permit application and the 5 drawing sheets that comprise the set of construction documents for the Mercy 3B Modifications at the State St building. I believe I have followed the file naming convention requested but if not, please let me know. I have also included a the life safety plan for the entire third floor (LS1 3rd floor).

Lastly, I would like to request fast track processing for this project and have included the fast track permit application as well. This project is an interior renovation that adds a cross corridor partition to separate a patient wing and another partition to create a nurse station for that wing. Mercy has received fast track status on several of their recent minor interior renovation projects and we feel this project is of similar sized scope & simplicity.

Please contact me if you have any questions or need any additional information.

Thank you.
